

Pop Down till Christmas

To make a Christmas countdown calendar, cut a tree shape with 24 bubbles from **bubble packaging** (as shown), use **glue dots** or **double-sided tape** to attach it to a piece of **paper**, then decorate **circular stickers** with **markers** and adhere them to each bubble. Have your kids squeeze a bubble to start each day of December with a bang!

Why not give your child a little in-expensive gift every day until Christmas? I know that one year my parents did this and it was great fun. We got it every evening after dinner!

Have a Fun December and celebrate Jesus Birthday all month!
